Scholarly Communications, "Open Access – What’s New in the Sciences?" (2015). *Open Access Week at Gettysburg College*. 1.
<https://cupola.gettysburg.edu/oaweek/2015/oaschedule2015/1>

This open access event is brought to you by The Cupola: Scholarship at Gettysburg College. It has been accepted for inclusion by an authorized administrator of The Cupola. For more information, please contact cupola@gettysburg.edu.

Description

Learn about some of the newest open access publications and platforms designed to support and accelerate science research. Join a discussion with librarian liaisons to science departments about how Gettysburg faculty and the library are involved.

Location

Musselman Library, Room 18

Disciplines

Information Literacy | Library and Information Science | Scholarly Communication | Scholarly Publishing

Open Access – What's New in the Sciences?

In advance:

- For fun: Take the OA Quiz (9 questions): [How much do you know about open access? Quiz](#)
- Read: [Peer review, preprints and the speed of science](#) (The Guardian, 9/7/15)
- Explore: Please take 10 minutes to explore your assigned tool. Some questions to consider:
 - What subjects does this cover?
 - What is the funding model? Are there author-facing charges?
 - Do you know of faculty research in your area that might be a good fit for this publishing platform?
- Tools to review:
 - Peer J (Donna)
 - eLife (Janelle)
 - bioRxiv (Meggan)
 - RIO Journal (Clint)

Agenda:

- New author readership maps in The Cupola (and how they differ from the live readership map)
- Share information about the tool you reviewed
- Discussion about OA in the sciences – anything from global trends to local practice is fair game
