**Abstract**
Musselman Library’s LGBTQ Research Guide, established in 2012, is a resource that goes beyond connecting the library’s collections with the campus community and providing access. This research guide has generated opportunities to grow campus partnerships, foster a student’s interest in librarianship, and create a gateway for research and learning in the LGBTQ community that goes beyond the classroom. In our presentation we will outline the project from its early days as a student project to its current life as collaboration between the library and Gettysburg Colleges’ Office of LGBTQ Advocacy & Education.
