JCCTL Mailer – July 12, 2021

Abstract

Updates on training and support and useful pedagogical resources compiled and sent by the JCCTL on July 12, 2021

- JCCTL Teaching and Mentoring resources page
- Featured resource guide from Josh Eyler's talk
- Data Visualization for Social Justice: The Case of Torn Apart/Separados, Dr. Roopika Risam, Associate Professor of Secondary and higher Education and English at Salem State University
- Jennifer Gonzalez interview with Peter Brown, author of "Make it Stick: The Science of Successful Learning"

Keywords

JCCTL, higher education, pedagogy, teaching and learning

Disciplines

Curriculum and Instruction | Educational Technology | Higher Education

JCCTL mailer: JPI resource guides, Digital Humanities, and more

Dear colleagues-

I sincerely hope this finds you recovering and/or creatively, scientifically, or otherwise engaged.

Here at the JCCTL, we are working through the resources you all helped generate during this year's June Pedagogy Institute. Thank you for participating if you were able to join us! If you were not, please know that our policy is to generate resource guides for the sessions we run, and JPI events are no different. If you would like to check out session recordings, slides, etc., from any JPI session, you will be able to do so.

Please take a look at the [JCCTL Teaching and Mentoring resources page](#) for resource guides of previous events; I'm also attaching a link to this mailer's [featured resource guide from Josh Eyler's talk](#). Several of you have requested the resources Dr. Eyler discussed and they are accessible via the link above.

We may feature one or two specific resource guides in each future mailer and hope to have most of them uploaded within the next week or so. Please contact us at jcctl@gettysburg.edu if you can't wait that long!

I would also like to draw your attention to two other items in this mailer:

Our colleagues in Musselman Library are sponsoring (with the Andrew W. Mellon Foundation) a Digital Humanities Summer Speaker Series. Tomorrow's talk is:

Data Visualization for Social Justice: The Case of Torn Apart/Separados
Dr. Roopika Risam, Associate Professor of Secondary and Higher Education and English at Salem State University

Tuesday, July 13, 10am EDT
Register here:

Prof. Risam is Chair of Secondary and Higher Education and Associate Professor of Education and English at Salem State University. She also serves as the Faculty Fellow for Digital Library Initiatives, Coordinator of the Graduate Certificate in Digital Studies, and Coordinator of the Combined B.A./M.Ed. in English Education. She will talk about her work on the [Torn Apart/Separados project](#) and how it intersects with issues with data ethics and social justice.

Lastly: if you're ready to start thinking about "Learning" again, let me recommend Jennifer Gonzalez's interview with [Make it Stick: The Science of Successful Learning](#) author, Peter Brown. (Running time approx. 40 mins).

JCCTL mailer: JPI resource guides, Digital Humanities, and more

As always, please contact us at jcctl@gettysburg.edu if you would provide us some feedback on past or future events. Thank you!

All the best, and be well.

Josef
